| | B. COURSE POLICIES |
|---|---|
| | Attendance is required; and university regulations in this regard are strictly applied. It is important to note the following: |
| | The student is expected to follow all announcements issued by the university, faculty, department as well as the course instructor through the official channels. It is the student's full responsibility to get aware of these announcements and to react accordingly. |
| 1. Commitment and Attendance | The student has to communicate electronically with the course instructor, whenever needed, through the official channels exclusively which are limited to the AAUP email and Moodle messages only. |
| | 3. The student is expected to attend all classes* and to arrive at classroom on time. |
| | If the instructor is late for class, the student must wait for at least 10 minutes before leaving the classroom. |
| | Absence by more than 25% of classes leads to an automatic withdrawal from the course (the grade W is assigned). |
| | The student must perform all course assessment activities, i.e. assignments, quizzes, exams etc. It is important to note the following: |
| 2. Performance of assessment activities | Absence from an exam or a quiz other than the final exam leads to a zero mark in that exam or quiz. An exception allowing a makeup is made for a student submitting a legitimate excuse that is accepted by the instructor in a timely manner. |
| | Absence from the final exam leads to an FA grade that eventually turns to an F grade. An exception allowing a makeup exam is made if the student submits an official excuse that is accepted by the Academic Affairs in compliance with the university regulations. |
